

A photograph of a man with a beard and a painted face, wearing a white shirt and a black cap, playing a set of bagpipes on stage. He is looking down at his instrument. The background is filled with warm orange and yellow stage lights, creating a dramatic atmosphere. In the bottom right corner, there is a large, semi-transparent watermark of a person's face.

**SEBUKY**

# Bio

**Born in Ecuador, rised in Barcelona. Sebuky researches and creates with musical instruments and rhythms from around the world but particularly from South America, adding electronic .. beats enriched with algorithms that provide randomness to sound effects thanks to his other profession, computer science.**

# Project

Currently working on the “Proyecto Pacha” trilogy based on the Inca mythology of the three worlds “Hanan pacha”, “Kay pacha” and “Uku pacha” from an immigrant perspective . Sound textures recorded in situ, birds of the Amazon jungle, wind of the Bolivian altiplano, waves of the south pacific, instruments made by artisans of the region, ancestral rhythms and modern are used for this, you can find more info on my website : [www.sebuky.com/proyectopacha](http://www.sebuky.com/proyectopacha)

# Live Set

Each concert is a different experience, it includes Andean wind instruments (quenas, pinguyos, sicos) as well as electronic controllers and depending on the conditions of the place can also include: Marimba de Chonta, guitar, charango, Galician bagpipes.

**In Live Band mode\* musicians of Latin american roots join to enrich the show with live voice, sound effects and Latin folk percussion (Colombian, Peruvian and Argentinian .. )**

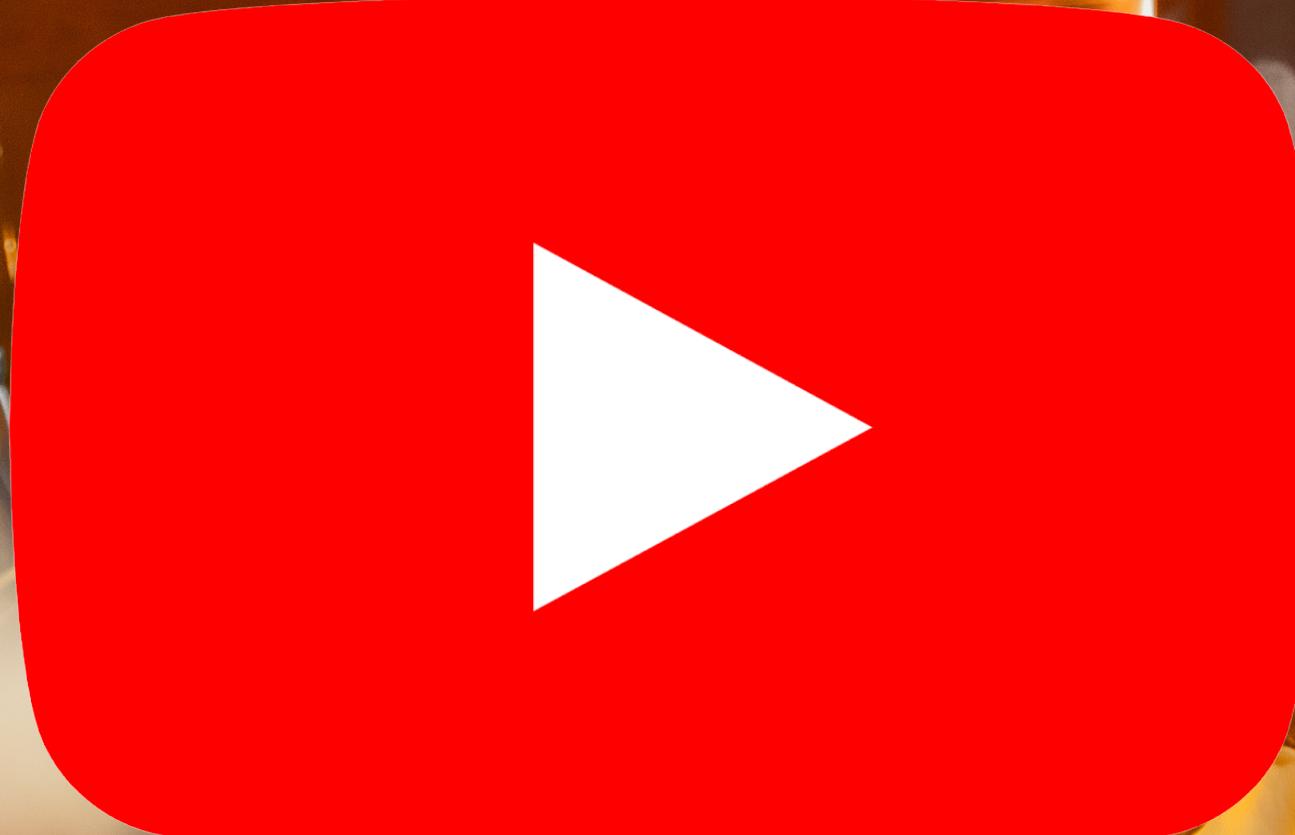

**\*currently available in Europe only**

**Live Band**
